

Plug into GOD's Power Socket

26 June 2016
Sunday evening service
Eugene Maree

We need to get into God's power socket.

8 ways to plug into God's miracle power:

1. Develop God's presence in your life.

Change your lifestyle so that it's conducive for the Holy Spirit to live in your life.
Spend time doing whatever it takes to make the Holy Spirit hang out with you.

2. Quickly confess your sins.

We're all human and we're quick to make mistakes.

Don't look at others.

Don't grieve the Holy Spirit.

When you're filled with the Holy Spirit your life will be filled with an atmosphere that will attract miracles.

3. Fill your life with faith.

Faith defies all logic and natural reality.

Look at God, not the world.

Walking in faith causes natural things to line up with things that have already taken place in the spirit.

Faith is born from a revelation in the heart.

When the truth is revealed to your mind and heart by the Holy Spirit, you will be able walk in faith.

The power of the anointing has come for a reason and is intended for a purpose.

The healing and miracles will only happen if we take action - what is faith without action?

No action, no miracle.

Go look out for opportunities, don't be discouraged, stay focused.

4. Passionately pursue spiritual gifts.

Ask God to stir it up in you.

You can't work for it, it's not an exchange. It is given freely by the Holy Spirit.

The more you push in the more you'll get.

5. Practice prayer.

Certain things only go out with prayer and fasting.

The devil does not want us to pray.

Prayer and fasting helps release God's faith within us.

Imagine being in a relationship when the person doesn't talk to you.

How to pray: just simply talk to God.

We can pray whenever and wherever we want.

6. Learn to hear God's voice.

To operate in God's power you need to develop a keen sensitivity.

God doesn't necessarily operate the same tomorrow as He does today.

Sometimes we just need to step back from the noise in our lives in order to hear His voice.

7. Mix with the anointing.

Sometimes we get so busy that we miss what God is doing.

Don't underestimate the corporate power of what is happening.

Don't miss out on what is happening in the body of Christ, in the church.

Be where God is moving so you don't miss out.

8. Love must be the motivation in everything that you do.

Without tapping into the power of God, we will be operating from pride.

Love is the greatest manifestation of God's power.

Love motivates our faith.

Without faith you can't please God, but without love you can't know or connect to God.

Expect to see God's glorious power and anointing in your life if you apply these principals.
